DID YOU KNOW?

In 2015, 53.2% of Americans surveyed said they were going to buy candy as a gift for their significant other. This year, consider **locally produced sweets** for your sweetie. Locally produced goods have less packaging - which means less waste to the landfill - and you'll be supporting your local economy. Now that is love!

According to the National Retail Federation, Americans will spend an estimated \$2.1 BILLION on flowers this Valentine's Day. This year, consider giving a **recycled valentine or craft** created from upcycled materials. If flowers are a must, how about a **potted plant**? It will last longer and help conserve landfill space.

This Valentine's Day, **give the gift of memories**, not junk. Instead of purchasing a gift that will lose its luster, plan a special outing, make a special meal, or think of something else nice to do for the special someone in your life. After all, that's what Valentine's Day is all about!

BEVERAGE CONTAINER RECYCLING... DONE RIGHT

No matter how you recycle, the County thanks you for your efforts. Here's a tip to maximize your recycling effort the next time you finish a refreshing, cold beverage:

- Take your aluminum, glass and plastic beverage containers to your local recycling center for a **cash refund** (5 ¢ for containers less than 24 oz. and 10 ¢ for containers 24 oz. or larger).
- Toss your rinsed beverage containers into your **blue curbside recycling cart** with your other recyclables.

No matter what, you'll be conserving precious resources. For more information on beverage containers eligible for a cash refund, please visit www.calrecycle.ca.gov/bevcontainer/.

Questions?
