## SUBDIVIDER CERTIFICATION REGARDING REMAINDER PARCEL

|   | has filed with the County of Tehama an application for a       |
|---|--|
| Tentative Parcel Map for a Minor Subdi        | vision (TPM). The application proposes                         |
| to subdivide the land into four lots plus     | a "Remainder Parcel." The California Subdivision Map Act       |
| and the Tehama County Subdivision Or          | dinance generally require that a Tentative Map for a Major     |
| Subdivision be filled to divide land into fir | ve or more lots. A Tentative Parcel Map for a Minor Subdivi-   |
| sion may be used to create up to four lo      | ots plus a Remainder Parcel, in cases where the subdivider     |
| does not intend to sell, lease or finance t   | he Remainder Parcel.   |

#### ENVIRONMENTAL REVIEW PROCEDURE

The California Environmental Quality Act (CEQA) requires an assessment of environmental impact for all projects requiring a permit or other discretionary approval from Tehama County decision-making bodies. The Tehama County Planning Department is responsible for making initial environmental determinations and recommending appropriate environmental findings to the decision-making body for adoption.

After a review of pertinent information, the Planning Department will make an initial environmental determination. This determination will result in one of the following:

- An <u>Exemption</u>—This means your project meets criteria for exemption from the requirements of the CEQA. No additional environmental review is required.
- A <u>Negative Declaration</u>—This means your project will not result in any significant effects on the
  environment. If conditions (mitigation measures) are applied to assure that no significant effects
  will occur, the environmental document is called a <u>Mitigated Negative Declaration</u>.
- 3. An <u>Environmental Impact Report (EIR)</u> This means your project may have a significant effect on the environment and additional information is necessary to determine appropriate mitigation measures. The Planning Department may give you an option of preparing a "special study" (i.e., traffic study, archaeological survey, etc.) to address the issue(s) instead of preparing an EIR. If an EIR is to be prepared, it must be prepared by a third party consultant selected through the established consultant selection process.

Please fill out the attached Environmental Information Form as accurately and completely as possible. Failure to do so may result in delays in processing your application.

If you need assistance or if you have any questions, please contact the Tehama County Planning Department.

#### STATEMENT OF APPLICANT RESPONSIBILITY & INDEMNIFICATION

Statement of Applicant Responsibility

Please read the following statement outlining your responsibilities in the application hearing process. An amendment to California Law (AB 884), adopted in 1977 and effective January 1, 1978, requires the County of Tehama and all other jurisdictions in the state to take final action to approve or disapprove a request like yours within one year of the County's acceptance of your application as complete. In most cases, the County has approved requests like yours in significantly less time. However, the legislation now requires the County to "count down" the days so that requests are not inadvertently approved without approval by the Board of Supervisors or a designated body. The law requires Tehama County to inform you within 30 days after the application is submitted if your application is incomplete for our needs. If the application is complete and has all the information we need, the processing will be initiated immediately. If additional data is needed, a letter will be sent to you specifically stating the information needed. The staff will not certify the application is complete until all the requested items have been submitted to the County and the required fees have been paid. PLEASE BE ADVISED THAT THIS APPLICATION IS NOT APPROVED UNTIL THE ULTIMATE HEARING BODY HAS TAKEN ITS FINAL ACTION AND ALL APPEALS EXHAUSTED. ANY RECOMMENDATIONS OR COMMENTS BY STAFF OR ACTIONS BY INTERMEDIATE HEARING BODIES ARE ONLY ADVISORY AND SHOULD NOT BE RELIED ON FOR THE PURPOSES OF MAKING FINANCIAL COMMITMENTS.

Indemnification The Applicant(s) shall defend, indemnify, and hold harmless, at the Applicant(s) sole expense, the County of Tehama and its employees, officers, contractors, and agents (the "County Indemnitees") from and against any claim, action, or judicial or administrative proceeding brought against the County Indemnitees, or any of them, to attack, set aside, void, annul, or otherwise challenge the County's decision on the proposed project to the Applicant, any environmental review or absence thereof associated with the proposed project, or the manner in which the County interprets or enforces the terms and conditions of proposed project at any time. The Applicant shall further pay all losses, liabilities, damages, penalties, costs, awards, judgments, fees (including reasonable attorney's fees) and expenses arising from such claim, action, or judicial or administrative proceeding. Counsel for the County Indemnitees in any such legal defense shall be selected by the County. Upon request of the County, the Applicant shall execute a formal written agreement containing the foregoing terms, but the Applicant(s) obligations hereunder shall be fully operative and enforceable regardless of whether such an agreement is executed.

#### AUTHORIZATION TO ENTER PRIVATE PROPERTY

#### **AUTHORIZATION TO ENTER PRIVATE PROPERTY**

Government Code Section 65105 authorizes County Planning Department personal, in the performance of their duties, to enter property and make examinations and surveys which do not interfere with use of the land by those person (s) lawfully entitled to the possession thereof. Often times responsible and trustee agencies must also be consulted and given the opportunity to review and comment on proposed projects, necessitating their entry onto the property in order to obtain all relevant information needed to process the application in a timely way.

If County and affected agency personnel are not able to enter the project site/ property, significant delays in the processing of the project, particularly the environmental review of the project, could occur and the project applicant may be required to hire a consultant(s) to submit information necessary to prepare the environmental documents addressing the project site.
