See [Upcoming Events](#) for the Summer and Fall 2014 calendar of collection events.

## **DID YOU KNOW:**

**The average student generates 240 pounds of waste each year.**

**One elementary school in one year can generate 18,760 pounds of lunch waste.**

This school year, concentrate on reducing how much waste our students are producing. Here's a couple of easy tips to get you going:

- Don't fight with your kids about food.

Instead, reduce food waste by incorporating their picky tastes into **healthy, low waste lunches**. Packing leftovers makes for an easy lunch or make healthy, homemade snacks. It's easy, nutritious and cuts down on food wrapper waste.

- Haven't you heard? Brown bags are *so* decades ago! **Invest in reusable containers and lunch boxes**. Eliminating the purchase of brown paper bags will save you money over time and decrease the amount of waste produced by schools.

- Consider our valuable natural resources when you are school supply shopping this year. **Don't purchase disposable school supplies**. Instead, opt for refillable pens and choose paper and other school products made of recycled material.

**For more information** please call the Tehama County Sanitary Landfill Agency at (530) 528-1103, visit [www.tehamacountylandfill.com](http://www.tehamacountylandfill.com) or email us at [tehamacountyrecycles@co.tehama.ca.us](mailto:tehamacountyrecycles@co.tehama.ca.us).

As always, please **do not forget to recycle!**  
It's good for the County and good for the wallet.
